ASHIANA HUMANITARIAN NETWORK SEMINAR SERIES 2023

Who we are

Ashiana Humanitarian Network Limited is a newly formed community-led independent not-for-profit organisation in Western Australia that aims to support refugees, asylum seekers, humanitarian entrants and their families in Australia, and related communities overseas, to find **a peaceful home**.

What we do

We aim to empower refugees, asylum seekers and humanitarian entrants in Australia, and related communities overseas to grow and flourish physically, mentally and socially in a world at peace by:

- **Engaging** with vulnerable communities, understanding their needs and targeting support
- **Connecting** communities, supporting family reunion, and building networks and collaborating with service providers and other NGOs
- **Assisting** by building capacity, facilitating and providing services and assistance, and supporting access to services and funding
- **Advocating** for policy, regulatory and other reform to communicate needs and services required, foster financial and other supports, facilitate access to advocates in specific cases, and raise public awareness
- **Investing** in our people, processes and systems, and attracting diverse funding, to ensure we are efficient, effective, accountable, sustainable and exceed our members' expectations.
